

Daily Log

Day/Date	Rating for the Day	Rating "Social Time"	Comments

Stuttering Rating Scale: 1= no stuttering
 2= very mild stuttering for your child
 10= very severe stuttering

Rating for the Day: Reports overall stuttering severity for the day. If stuttering varies a lot in the course of a day, please report a range, for example 2-7 would indicate part of the day stuttering was very mild and part of the day your child was stuttering quite a bit.

Session Rating: This is the session or part of the day that you are facilitating fluency.

Comments: This can be anything you think is important or which you would like to remember to talk with me about. You might record the activity you did during your treatment session, observations about easier or more difficult situations, or descriptions of the stuttering events.
